

FUEL OX MARINE®

Fuel Ox Marine® is a multi-functional and performance enhancing marine additive. It is designed to alleviate ethanol issues, remove water from fuel, significantly delay phase separation, and improve fuel efficiency.

Fuel Ox Marine® contains a patented catalyst that lowers the combustion point of fuel—causing an earlier, more sustained combustion cycle. This results in an increase of fuel efficiency and a decrease of emissions. One ounce of Fuel Ox Marine® is designed to treat up to 80 gallons of gas or diesel.
